# Product Overview

## Introduction

The Dutch Door W5700 (all wood) continues to grow in popularity as people re-discover the charm, utility, and beauty of this classic product. It functions like a traditional door, but also has an upper panel that can open while the bottom panel remains closed, making this door a perfect solution in good weather or bad. Reveal Windows & Doors offers a premium Dutch door design that can be customized with either wood or glass panels above or below, and configured for in-swing or out-swing usage. Choose from a wide variety of options such as decorative glazing, specialty hardware or custom grille patterns. Whatever your selection, your Dutch door will enhance any living space and provide you with years of enjoyment and convenience.

## Hardware Options

Doors are pre-hung on brass hinges, in either Oil-Rubbed Bronze or Satin Nickel finish.

Handle sets and locks are available but not standard on our door systems.

## Glazing Options

Standard glazing for the optional glass door panel uses 3/4" overall tempered insulated glass. Custom glazing, tinted glass, wood flat panels, and wood raised panels are also available.

We offer two different standard edge details:

- Contemporary
- Traditional

Custom edge details are available. See the General Info section for more details.

## Wood Species

The mark of responsible forestry

Our standard wood species are the following:

- Pine
- Vertical Grain Douglas Fir
- African Mahogany

Alternative and exotic wood species are also available. See the Wood Species page in the General Info section.

## Other Options

The Dutch Door W5700 is available with optional pre-finishing, custom grille patterns, and raised wood panels.

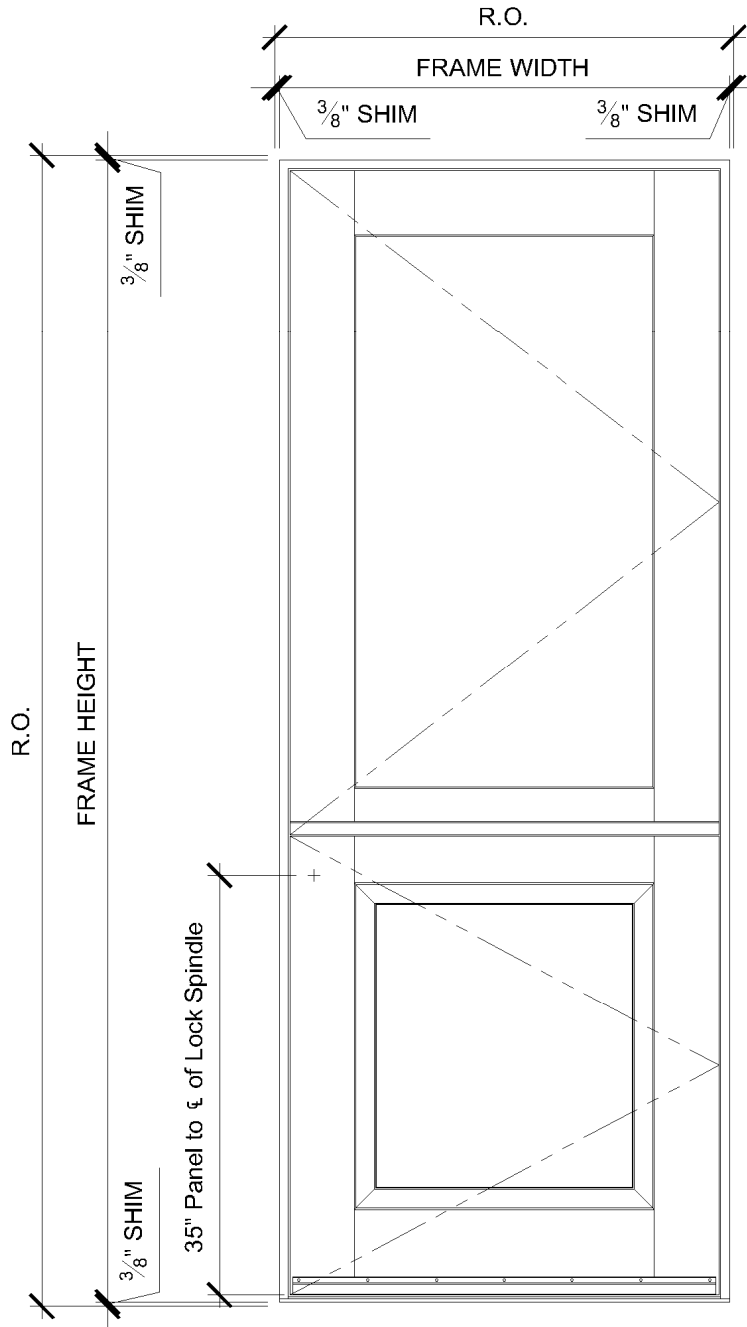

Contact Reveal Windows & Doors for additional options and
